North Industrial Park Expansion Under Way

Excavation is under way on the eighth major expansion at the Live Wire Division's North Industrial Park facilities. Bottom photo of the North River Rd. site

includes an artist's conception of the four new additions. Arrows 1 and 2 point to excavation shown in top photo. Additions total 301,500 square feet.

Totals 301,500 Square Feet

Excavation is under way on new additions to the North Industrial Park facilities, which when completed, will increase the total floor space of the Live Wire Division to nearly three million square feet.

The new construction, totalling some 301,500 square feet, will take the form of four additions: one to Plant 11 and three to Plant 12. The bulk of the new space will be used for manufacturing, finished goods storage and shipping activities, with the remainder consisting of added space on personnel buildings to the front of each plant.

It marks the eighth major expansion at the North River Road site since the Division acquired the 165-acre tract of land in 1954.

General Manager G. W. Chestnut pointed out that the rapid and consistent growth of the Live Wire Division over the years, especially since it became a part of the General Motors family in 1932, should be a source of pride to all Packardites, because it is "a reflection of our fine tradition of quality workmanship."

In 1932, the entire organization covered less than half of the space which will be encompassed by the present new construction.

Pogue Appointed To New Position

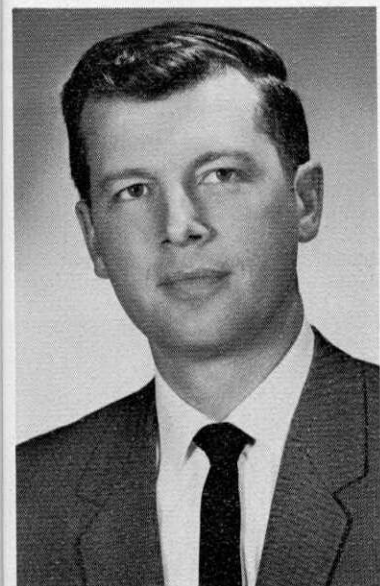

The promotion of Lawrence E. Pogue to the newly-created position of Director of Reliability and Quality Control was announced recently by Director of Engineering C. P. Christman.

Mr. Pogue has been director of Quality Control at the Live Wire Division since 1959. His new post reflects not only an expansion of his overall responsibility, but also a restatement of Packard Electric's determination

Weitz Is Named Chief Engineer

The promotion of Charles E. Weitz to Chief Engineer for Cable and Components was announced recently by C. P. Christman, director of Engineering.

A native of East Cleveland and a 1945 graduate of Shaw High School there, Mr. Weitz

C. E. Weitz

received a bachelor of science degree in electrical engineering from Case Institute of Technology, Cleveland, in 1950.

He joined the Live Wire Division in 1951 as a member of its Product Engineering Department, holding several engineering and quality control positions be-

Car Preview

The 1967 line of General Motors automobiles will be unveiled for Packardites and members of their families in the administration Building Garage on Tuesday, Sept. 27, from 6:30 a.m. to 9 p.m.

CHEVROLET's new entry in the field, the CAMARO, is expected to be the highlight of the annual Employee Car Preview. Besides CHEVROLET, '67 versions of OLDSMOBILE, PONTIAC and BUICK will be on display, along with a new GMC truck.

WHHH's Floyd Ryel will be on hand part of the day, sampling the impressions of Packardites and their families for playback on the "Assembly Line" Show.

Romig Awarded GM Fellowship

Michael V. Romig was recently awarded a full General Motors graduate fellowship and is currently working on an M.S. degree in mechanical engineering at Carnegie Institute of Technology, Pittsburgh, Pa.

Romig completed his fourth year at General Motors Institute (GMI) in July. The normal GMI program is five years. However, under the bachelor-master program, students with outstanding undergraduate records who are nominated by a general manager of a division may, upon approval,

M. V. Romig

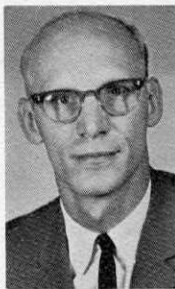

a division may, upon approval,

3 Promoted To Staff Engineers

Three high level promotions in the Product Engineering Department were announced recently by C. P. Christman, director of Engineering.

Those named and their new positions are: Richard R. Nelson, Staff Engineer, Cable; William C. Wehmer, Staff Engineer, Assemblies; and Robert C. Woofter, Staff Engineer, Development.

W. C. Wehmer

R. R. Nelson

Born and raised in Ord, Nebraska, Nelson was graduated from high school there in 1949, and received a bachelor of science degree in electrical engineering from the University of Nebraska, Lincoln, Neb., in 1960.

He joined Packard Electric's Quality Control Department in 1960, moving to Product Engineering later that same year. In 1964 he became a supervisor, and in 1965, he was promoted to general foreman of Quality Control, the position he held prior to his appointment.

Upon release from four years' service in the U. S. Navy, Nelson held the rank of fire control technician, first class.

He is married to the former Edna Lammers, of Kearney, Neb. The couple are the parents of

three children: Karen, age 7; Mark, 6; and Grant, 4.

Wehmer is a native of Monroeville, Pa., and a 1954 graduate of Turtle Creek High School, Turtle Creek, Pa. He is an alumnus of Pennsylvania State University, University Park, Pa., where he received a bachelor of science degree in industrial engineering in 1959.

Chief Methods Engineer

Following graduation, he started with the Live Wire Division as an engineer in the Methods Engineering and Work Standards Department. In 1960, he was named a chief methods engineer, and he was promoted to supervisor of Methods Engineering and Work Standards for Plant 11 in 1963. He moved to the Product Engineering Department in 1964, when he was named a section chief, the position he held until his present promotion.

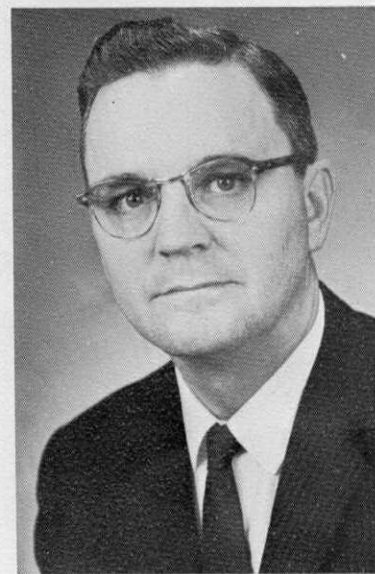

A member of St. Paul's Lutheran Church, Wehmer is married to the former Sally Jean Bell, of Vandergrift, Pa. They have four children: William, age 9; Richard, 6; Kurt, 3; and Andrew, 1.

R. C. Woofter

He began his Packard Electric career in 1940 in the Drafting Department, moving to the Production Engineering Department as a designer in 1941. In 1949, he transferred to the Product Engineering Department, becoming a section

Continued on Page Four

L. E. Pogue

to maintain and improve its high standards of excellence in the products it manufactures.

A native of Media, Ill., Mr. Pogue was graduated from Media High School in 1931. He received a bachelor of science degree in chemistry from Monmouth College, Monmouth, Ill. in 1936, and was graduated in industrial engineering from General Motors Institute (GMI) in 1939.

Manufacturing

He joined Packard Electric in 1937 as a GMI student, and became a manufacturing foreman in 1940. He was named a manufacturing general foreman in 1942, and a general foreman of Inspection in 1944. In 1948, he was appointed chief inspector, and in 1958, he became chief engineer for cable products, the position

Dept. 404

By Pat Lewellyn

Good luck to our desk girl, Mary Ann Walters, who left us to await the stork . . . Welcome to Beverly Wiczorek, our new desk girl . . . There are several new faces in our department. Welcome to Beverly Kale, Paula Kibler, Lois Sommerville, Elizabeth Glaser, Stel Bettura and JoAnne Moore . . . Get-well

wishes to Agnes Lah's husband, who is in the hospital, also to Bernice Surrena, who didn't get her toes out of the way when she dropped a can of peas . . . Vacations: Rosale Hipkins and family toured the western states; Gerry Busick and family visited in Michigan; your reporter and her family went camping in Ohio and West Virginia . . . Our best wishes to Elizabeth Glaser's son who recently joined the Army.

Dept. 1211

By Anne Lucik

A surprise "bon voyage" was held for Claire Costa, who is vacationing in Italy . . . Recent vacationers who are back to work include: Jennie Durbin and family, and Bob Iannizzaro and family, who went to Cedar Point . . . Helen Greenawalt is back from Topeka, Kansas; Pauline Force, from Tennessee; and Blanche Fonderlin, from Maine . . . Helen Rath and family vacationed in Canada and Niagara Falls; Dixie Harris, in Utah and Colorado; Chris Brown, in North Carolina; Velma Banks, at Niagara Falls; Viola Battison, in Michigan; Midge Nader, in California; and Mary Geiak, in Atlantic City . . . Washington, D. C. vacationers were: Laura Bowen, Phyllis Hinkle, Lila Parker and Florence Speicher . . . Hazel Boseley's son, David, spent the Labor Day weekend at home. He is in the Air Force and stationed in Texas . . . Barbara Lombardi is leaving us to attend school in Indiana . . . A get-well wish to Adeline Di Sario, who is on medical leave . . . Those who transferred are: Janice Wolfe, to Plant 8; Laura Bowen, to Plant

3; and to Salvage, Theresa Ezze and Anne Stredney . . . Anne Boyd's son plays football at Western Reserve High School, and Velma Bank's son is a half-back at Woodrow Wilson . . . Delores Mayercak and family spent the Labor Day weekend at Niagara Falls . . . Mary DeMarco vacationed in Canada, and Bonnie Clendenin, in Virginia.

Depts. 323-324

By Marcia M. Kagy

We were all sorry to lose our foreman, Jack Downing, who moved to Richardson, Texas. Our best wishes go with him and his family . . . Welcome to new foreman, Frank Bator . . . Dorothy McGinnis did some traveling during her week's vacation. She spent three days at Deep Creek, Md. and the remaining time with relatives in Terra Alta, W. Va. . . . Charlotte Burns transferred to Dept. 401 . . . Ed Crepage's brother, Richard, will soon begin his duties at GMI . . . We're glad to see Pat Gentilcore back with us again. Guess he just can't stay away . . . Your reporter and husband, Don, and daughters recently moved into their new home . . . Helen Tuori's grandson,

Depts. 55 & 99

By Mary Labosky

Wilbur Fields never has a dull moment on his vacations. This time, while traveling out West, he lost a battery—seems someone else needed it more than he did . . . Beverly Green sported a BUICK convertible while on her vacation. Beverly entered the "Drive-A-GM-Car-For-A-Week" contest and came out a winner . . . We bid good luck to Jean Webster, who transferred to Production Control . . . The newcomer to Communications is Bonnie Reitz, who took over where Carol Sech left off. Carol left us to await the arrival of the stork . . . Good to see Mary Helen Hurton back at her post after being off on sick leave.

20 Packardites Promoted To Supervisory Positions

Philip J. Garnet . . . Foreman . . . Dept. 1126 . . . A native of Harts-town, Pa., he is a 1958 graduate of Conneaut Lake (Pa.) High School. He started with the Live Wire Division following graduation and has worked in service and as a cutter. His wife is the former Charlotte Mae Serb, of Sharon. The couple and their three children reside at R. D. 4, Cortland.

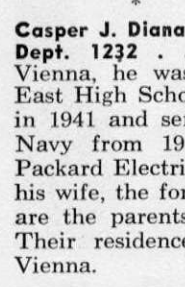

R. D. Magos

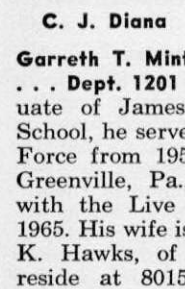

P. J. Garnet

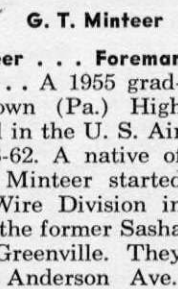

Robert D. Magos . . . Foreman . . . Dept. 1145 . . . A graduate of Hamilton High School, he is presently working toward a B. S. degree in business administration at Youngstown University. He served in the U. S. Navy from 1942-46, including three years' duty in the Pacific. A member of the Oaks Gun Club and the Vienna Fish and Game Club, he is married to the former Dorothy Winters, of Warren. The couple has two children and resides at R.D. 4, Cortland.

Casper J. Diana . . . Foreman . . . Dept. 1232 . . . A native of Vienna, he was graduated from East High School in Youngstown in 1941 and served in the U. S. Navy from 1943-44. He joined Packard Electric in 1963. He and his wife, the former Mary Gladd, are the parents of two children. Their residence is at R. D. 2, Vienna.

C. J. Diana

G. T. Minter

Garreth T. Minter . . . Foreman . . . Dept. 1201 . . . A 1955 graduate of Jamestown (Pa.) High School, he served in the U. S. Air Force from 1958-62. A native of Greenville, Pa., Minter started with the Live Wire Division in 1965. His wife is the former Sasha K. Hawks, of Greenville. They reside at 8015 Anderson Ave., N. E.

D. R. Spain

R. E. Fike

Richard E. Fike . . . Foreman . . . Dept. 1152 . . . He graduated from Philipsburg (Pa.) High School in 1955 and following graduation served in the U. S. Navy until 1958. A native of Philipsburg, he started with the Division in 1965. He and his wife, the former Beverly Shepherd, of Warren, reside at 557 Lilac Pl. N. W.

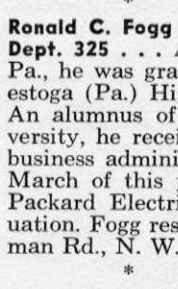

R. C. Fogg

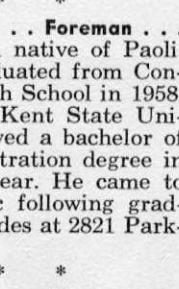

J. A. Faflik

Dominic R. Spain . . . Supervisor . . . Blueprint Section . . . He was graduated from Warren G. Harding High School in 1955 and served in the U. S. Air Force from 1958-62, including two years' duty in Alaska. He first started with the Division in 1963 as a tool designer in the Production Engineering Dept. He took an educational leave and received a B. S. degree in business administration from Youngstown University in 1966. His wife is the former Janet L. Cooley, of Conneaut Lake, Pa. They reside at 3220 Williamsburg St., N. W.

Ronald C. Fogg

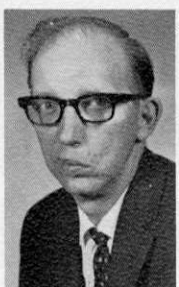

James A. Faflik

James A. Faflik . . . Foreman . . . Dept. 1111 . . . Faflik started with the Live Wire Division in June of this year. He was graduated from Cathedral Latin High School, Cleveland, in 1962 and received a bachelor of science degree in industrial management in 1966 from Purdue University. A native of Euclid, he resides at 2144 Reaves Rd., N. E.

Richard J. Alge . . . Foreman . . . Dept. 1122 . . . An alumnus of the University of Detroit, where he received a B. S. degree in industrial management in April of this year, he is a native of Fostoria. A member of the K of C, he is married to the former Elizabeth Williams, of Fostoria. The couple has one child and resides at 550 Perkins Dr., N.W.

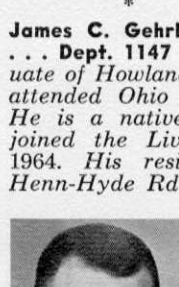

R. J. Alge

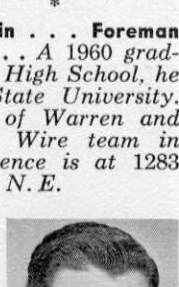

J. W. Bush

John W. Bush . . . Foreman . . . Dept. 1109 . . . A native of Nanty Glo, Pa., he was graduated from high school there in 1941 and served in the U. S. Army Air Corps from 1944-46, including duty in Germany. He started with the Live Wire Division in 1953 and has worked in service, as a press operator and as a group leader. His wife is the former Dorothy Leonard, of Nanty Glo, and they are the parents of three children. Their residence is at 1533 Homewood, S. E.

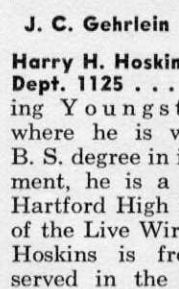

James C. Gehrlein

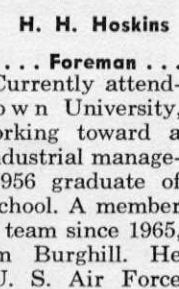

H. H. Hoskins

James C. Gehrlein . . . Foreman . . . Dept. 1147 . . . A 1960 graduate of Howland High School, he attended Ohio State University. He is a native of Warren and joined the Live Wire team in 1964. His residence is at 1283 Henn-Hyde Rd., N. E.

Harry H. Hoskins

John E. Hipkins

Harry H. Hoskins . . . Foreman . . . Dept. 1125 . . . Currently attending Youngstown University, where he is working toward a B. S. degree in industrial management, he is a 1956 graduate of Hartford High School. A member of the Live Wire team since 1965, Hoskins is from Burghill. He served in the U. S. Air Force from 1956-60. His wife is the former Geraldine Waters, of Hampton, Va. Parents of three children, the couple resides at 1153 Summit, N.W.

M. A. Matthews

R. L. Butkowski

M. Alan Matthews . . . Foreman . . . Dept. 1112 . . . A 1957 graduate of Weatherfield Township High School, currently he is working toward a B. S. degree in mechanical engineering at Youngstown University. He joined the Packard Electric team last year. Matthews is married to the former Shirley Pressell, of Niles. The couple has four children and resides at 902 Nancy St., Niles.

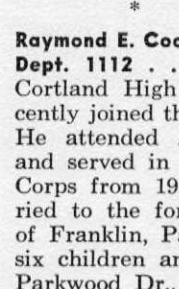

J. E. Hipkins

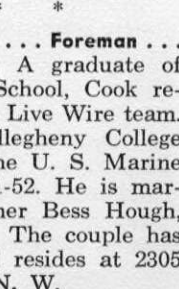

R. E. Cook

Robert L. Butkowski . . . Foreman . . . Dept. 1143 . . . Formerly of New Castle, Pa., where he was graduated from high school in 1962, Butkowski is an alumnus of Westminster College, New Wilmington, Pa. He was awarded a B. A. degree in business administration in June of this year and started with the Division in August. He resides at 813 Dushane St., New Castle.

Raymond E. Cook

Paul C. Blaylock

John E. Hipkins . . . Foreman . . . Dept. 1115 . . . A 1960 graduate of Vernon High School, he served in the U.S. Army from 1960-63, including 15 months' duty in Korea. Hipkins became a Packardite in 1965. A native of Kinsman, he is married to the former Virginia Lee Moorhead, of Hartford. The couple resides at R. D. 1, Burghill.

Arnold M. Roman . . . Foreman . . . Depts. 1162 and 1163 . . . A member of Knights of Columbus Council No. 620 and Moose Lodge No. 627, he is a graduate of St. Mary's High School and currently is attending Kent State University Extension. Roman joined the Division in 1954. He and his wife, the former Judith A. Groff, of Warren, are the parents of one child. They reside at 607 Bonnie Brae, N. E.

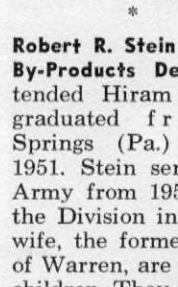

A. M. Roman

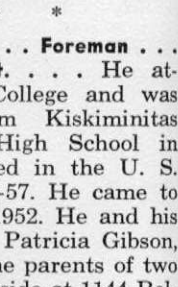

A. F. Budak

Anthony F. Budak . . . Foreman . . . Dept. 1203 . . . Currently he is working toward a bachelor of business administration degree at Kent State University. A native of Campbell, he was graduated from high school there in 1960. Budak became a Packardite in 1963. He and his wife, the former Patti Castranova, reside at 39 Woodglen Ave., Niles.

Robert R. Stein

P. C. Blaylock

Robert R. Stein . . . Foreman . . . By-Products Dept. . . . He attended Hiram College and was graduated from Kiskiminitas Springs (Pa.) High School in 1951. Stein served in the U. S. Army from 1955-57. He came to the Division in 1952. He and his wife, the former Patricia Gibson, of Warren, are the parents of two children. They reside at 1144 Belvedere, S. E.

Paul C. Blaylock

P. C. Blaylock

Paul C. Blaylock . . . Foreman . . . Dept. 304 . . . He has worked in a variety of manufacturing jobs since joining the Division in 1948. Blaylock served in the U. S. Army from 1950-53, including overseas duty in Germany. He and his wife, the former Belva R. Riefinger, of Mineral Ridge, are the parents of two children. They reside at 432 Bank St., N. E.

Picking up light energy from a single light bulb located at the center of the display, 139 individual SeeLite wires of the type held by the model travel a circuitous route to illuminate the letters of their name. The model is Gretta Leach, of the Labor Relations Dept.

... MAKES POSSIBLE THE ILLUMINATION OF
MANY INSTRUMENT PANEL COMPONENTS
FROM A SINGLE LIGHT SOURCE.

Packard Electric has long been known as the Live Wire Division, but with the recent announcement that we have developed automotive applications for a light-conducting "wire," you could say that we are also the "Lite Wire" Division.

The new light-conveying product, called "SeeLite," is basically made up of Du Pont "Crofon" plastic fibers, which transmit light energy in much the same way as a copper wire conducts electrical energy.

Due to the flexibility of the wire, several leads can be run from a single bulb, placed in a convenient, easy-to-reach location, to light several less convenient locations. When a bulb and socket cannot be used due to space limitations, the instrument panel component can be lighted by SeeLite.

Pioneer applications of the new product will be found on some 1967 GM cars and trucks. Specific examples of planned uses of SeeLite are:

Pontiac — Two compartmental ash trays and the cigar lighter will be illuminated by SeeLite, using an ignition switch lamp as its light source.

Chevrolet — SeeLite, traveling from a bulb in the instrument cluster, will illuminate the ignition switch.

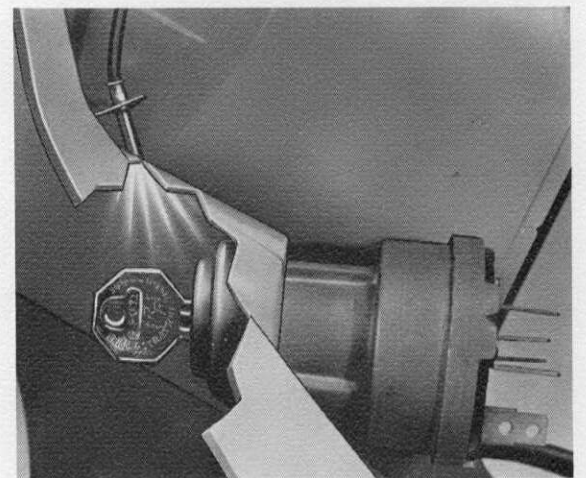

Buick Riviera — The windshield washer and wiper control switches will be lighted by an instrument cluster bulb via SeeLite.

Chevrolet and GMC Trucks — Automatic transmission pointers and shift plates will be illuminated by a SeeLite lead running from a bulb in the instrument cluster.

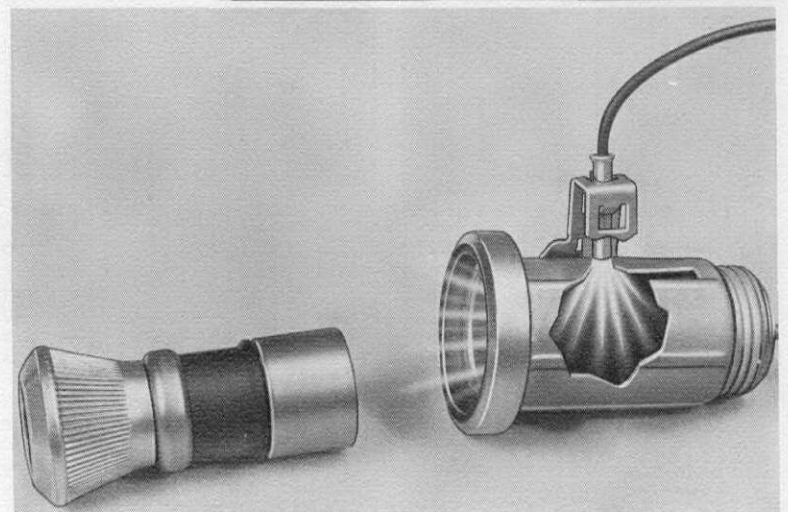

The scientific phenomenon of transmitting light over distances and bending it around corners by means of glass tubes and glass fibers is not a new discovery. However, the recent development of a plastic fiber material has made possible a practical and somewhat revolutionary place for the phenomenon in the automotive industry. In addition to its flexibility, SeeLite allows for an increase in the intensity of the light transmitted, simply by the addition of more Crofon fibers to the assembly.

A special room in the Research-Engineering Center is equipped with ambient light control and positioning devices for full-scale mock-up and evaluation of fiber optic systems. Human reaction to light colors, intensities, location and direction can be studied and engineering specifications developed.

Prior to shipment to automotive manufacturers, each individual SeeLite lead is checked by electronic testing equipment to insure that it measures up to high GM quality standards.

This is an example of the use of SeeLite to floodlight the ignition switch.

The illumination of the cigar lighter housing, as illustrated here, will be featured on 1967 Pontiacs. When limited space will not permit the use of the conventional bulb and socket, SeeLite may sometimes be the only way possible to light an instrument panel component.

Depts. 321-22-25-27

Phyllis Cheeks

We would like to welcome Helen Chandler and Virginia Lupu back from sick leave. It was also nice to hear that Helen was able to bring her daughter home from the hospital at the same time. Both women work in Dept. 321. . . . Dept. 325 is very sorry to lose Bob Dudek to Uncle Sam, but everyone is certain that he will make a welcome addition to our country's fighting forces. . . . Congratulations to Ron Fogg, who was officially named foreman in Dept. 325 recently. . . . Vi Lingo, who works in Dept. 321, will be touring the western states on her vacation, and will be seeing relatives that she has never met in her life. . . . Also touring the western portion of the country will be Elsie Browning, who also works in Dept. 321. . . . Mildred Williams, or "Grandma" as she is affectionately known by her co-workers, is enjoying her new BUICK RIVIERA, while Bill Malone can find no fault with his CORVAIR MONZA. Both hail from Dept. 321. . . . We are happy to have Burt Gozzard back from vacation. He really hit all the high spots in Florida, or so we are told. Burt is at home in 322. . . . Roberta Moore, also from Dept. 322, recently became a grandmother again. . . . John Richards, who marks a birthday in September, visited that great state of Texas over the Labor Day holiday. Also visiting over the Labor Day weekend was Delores Rudd, who saw her mother in Maryland. Both work in Dept.

321. . . . We are certainly sorry to lose Jeff Oliver, who is taking an educational leave of absence, and also Joan Sawayda, who is leaving us to take up the full-time duties of wife and mother. Both of these people work in Dept. 321. . . . Francis Pabin, son of Steve Pabin, will soon be heading overseas for a tour of duty with Uncle Sam. . . . Mike Posega marks another year in September. Mike is the newest packer in Dept. 327. . . . Welcome back to Jeannetta Holloway, who attended an Elks convention during her recent vacation. . . . Terry Moody and Ron Golden were the vacationers from Dept. 327. . . . Congratulations to Helen Chandler, who recently became a grandmother.

Dept. 1151

By Liz Zampedro

Our sympathy goes to Ann Sekulich and family in the loss of her father-in-law. . . . In honor of Ruth Rowland's father's 80th birthday, his four daughters and two sons had a family reunion which was attended by 50 relatives. This is the first time in 25 years that the sons and daughters have all been together at one time. Ruth was also honored by 15 of her co-workers at a house warming at her new mobile home. She was presented a beautiful sunburst clock and other gifts. She wishes to thank everyone. . . . Peg Stanton's son is home from the Navy, having been discharged in August. Chuck Burkett's wife recently was graduated from Kent State with a master's degree in education. . . . Edie Yokley's

cousin from Chicago spent a week with her. They had a week of enjoyment just going from place to place. . . . Mary Stuber toured through the New England States for three weeks and also stopped to see the Kennedy home. . . . Charlie Weese and family spent a week in Baltimore, visiting his brother and family. Lillian Gesue and husband and brother and his family spent a week at the Driftwood on Lake Erie. Ann Samanco and husband and their son and his family spent a week in Canada doing some fishing. They brought home a large amount of fish.

Best wishes go out to Patricia Harkless and her husband. . . . Fran Nasser is a real proud mother. Her son, Davey, has just completed little league season, and was chosen for the All-Star Team in West Middlesex. . . .

Peggy Meffe is now in her new home. . . . Barbara DeVengencie is on leave, waiting for the stork. . . . Chelo Mathis went to Tennessee to bring her five children home from their summer vacation with grandma. . . . Helen Lavelle is a proud grandmother. . . . Our sympathy goes out to Vi Bailey on the death of her son.

Quality Is Teamwork

Teamwork . . . in football, is a big fullback charging over right tackle for five yards and a crucial first down . . . in baseball, the runner on first breaking with the pitch and the hitter slapping the ball through the right side of the diamond in perfect execution of the hit-and-run . . . and in industry, a salesman proudly displaying to his customers the fine products his company makes.

When that big fullback plows his way through the line, the cheers of the fans are primarily for *his* effort, but without the 10 other men, each doing his job to a "T", the play would not have worked. One missed block could mean a loss instead of a gain.

When a customer examines our products and feels he is buying the "best," although the salesman made the contact, it took the combined efforts of engineers, production workers, inspectors, office workers, and shippers to put out a reliable product.

There is no unimportant job when teamwork is involved. Your position might be that of offensive guard, whose duty it is to throw a block a particular way on a certain play. If you fail in your assignment, the efforts of the 10 other players are negated.

Quality is the teamwork expressed in the skilled hands of a tool and die maker . . . the leadership of a supervisor . . . the cheerfulness of a receptionist . . . the production worker's conscientious attitude.

Because quality is teamwork . . . it is the responsibility of each individual.

4 Engineers To New Positions

J. E. Rase

R. J. Fulton

J. F. McCarthy

R. B. Dohn

Jerry F. McCarthy . . . Chief Work Standards Engineer for certain Plant 11 departments . . . A 1956 graduate of Ursuline High School, Youngstown, he received a B. S. degree in mechanical engineering from Youngstown University in 1962. An artillery officer in the U. S. Army from 1963-65, he joined the Division following completion of active duty. He is a native of Buffalo, N. Y. and resides at 64 Rockdale Ave., Youngstown.

R. James Fulton . . . Chief Work Standards Engineer for certain Plant 11 departments . . . A graduate of Quincy (Ill.) High School, he is an alumnus of the University of Illinois, where he received a B.S. degree in mechanical engineering in 1964. He started with the Live Wire Division that same year. A member of the YMCA and the Youngstown Ski Club, he resides at 636 Bonnie Brae, N. E.

Roger B. Dohn . . . Chief Methods Engineer for Plant 12 . . . A native of Grand Island, N. Y., he was graduated from Tonawanda

(N.Y.) High School in 1953. In 1958, he was awarded a bachelor of civil engineering degree from Cornell University. A member of the Elks and the American Society of Civil Engineers, he is a Red Cross water safety instructor. Dohn started with Packard Electric in 1964. His wife is the former Ann Klass, of Pittsburgh. They are the parents of three children and reside at 400 Perkinswood Blvd., S. E.

James E. Rase . . . Supervisor of Methods Engineering and Work Standards for Plant 10 . . . A 1954 graduate of Wheelersburg High School, he received a B. S. degree in industrial technology in 1962 from Ohio University. He served in the U.S. Navy from 1954-57, including duty in South America and the Far East, and joined the Live Wire team in 1962. His area of responsibility also includes the bulk cable departments in Plant 3. He and his wife, the former Judith Kay Nitzke, of Albert City, Ia., reside at 3292 Red Fox Run, N. W.

Dershaw Named At Plant 10

The promotion of David V. Dershaw to Assistant Superintendent of Plant 10 was announced recently.

A 1949 graduate of St. Mary's High School, Dershaw was graduated from General Motors Institute in 1955 with a bachelor of industrial engineering degree. Formerly a supervisor in Work Standards Engineering, he is a member of the Knights of Columbus and the American Institute of Industrial Engineers.

A native of Warren, Dershaw is married to the former Connie Carrier, of Brookville, Pa. They are the parents of four children: Pamela Jean, age 13; Diane Marie, 8; Paula Sue, 6; and Donna Lynn, 4 mos.

Are you as good a driver as you think you are? Practically every Packardite who completed the National Safety Council's Driver Improvement Program, felt that he was a proficient driver before he began the course. However, almost without exception, each agreed that his knowledge of the art of driving had been improved by the program.

The course is being conducted on a continuous basis by qualified instructors under the direction of James A. Waldron, Packard Electric Safety supervisor. It covers eight hours of classroom instruction presented in four weekly meetings of two hours each.

The next session will run from 7-9 p.m. for four consecutive Wednesdays, beginning Oct. 5. Contact the Safety Dept. (EPBX 2104).

By the way, it's free.

Weitz Appointed

Continued from Page One
fore being named assistant chief inspector in 1955, and chief inspector in 1957.

In 1959, Mr. Weitz was appointed staff engineer for research and development, and in 1962, he became staff engineer for bulk cable, the position he held prior to his present appointment.

A veteran of nearly two years' active duty with the Naval Air Corps, Mr. Weitz is a member and past president of the American Society for Quality Control, and belongs to the American Institute of Electrical and Electronics Engineers and the Sandusky Yacht Club.

His wife is the former Nancy Jean McNear, of Arlington, Virginia.

General Foremen Promotions

L. D. Stone

C. L. Dungan

begin work on a master's degree after the fourth year under terms of a graduate fellowship.

A native of Warren, Romig is a 1960 graduate of Warren G. Harding High School. His home is at R.D. 1, Fowler.

Upon completion of requirements for a master of science degree, he will receive concurrently an M. S. degree from the cooperating school and a bachelor of mechanical engineering degree from GMI.

Pogue Named

Continued from Page One

he held before being named director of Quality Control.

A member of the First Presbyterian Church and the American Society for Quality Control. Mr. Pogue serves as a director of the Family Service Association and the Warren Public Library. A past East District chairman for

the Boy Scouts, he belongs to the YMCA.

He is married to the former Martha Randles, of New Castle, Pa. The couple are the parents of three sons.

McBane Promoted

The promotion of Robert L. McBane to the newly-created public relations staff position of General Supervisor, Visual Aids and Special Projects, was announced recently.

A 1945 graduate of Warren G. Harding High School, McBane joined the Live Wire Division in January 1947.

R. L. McBane

He worked for a time in engineering before moving to the public relations staff as staff photographer. In 1958, he became supervisor of photography and recreational activities, the position he held prior to his present appointment. An Army veteran, he serves as trustee of the Warren Elks Lodge No. 295, and has been finish line photographer for the Warren-Trumbull County Soap Box Derby since its inception. He is a member of the First Methodist Church.

McBane is married to the former Louise Stelmah, of Warren. They are the parents of six children: Michael, age 13; Terrence, 8; Erin, 7; Heather, 6; Patrick, 4; and Sean, 3.

NEVER A DOUBT as to the outcome of the Men's Golf League championship is expressed by the confident smiles of the members of Factory Office, champs. From left to right are: Jim Herman, Labor Relations; Tom Costantino, Dept. 322 foreman; Ed Grgurich, general foreman, Plant 11 Quality Control; Hank Richetto, Dept. 1108 foreman; Jim McGee, general foreman, Plants 3 and 4 Quality Control; and Ed Zuga, Dept. 1134 foreman. Larry Pogue, director of Reliability and Quality Control, was not present for the photo.

BEST OF OLD PALS, Angelo DeJacimo, Dept. 550, left, and Stan Kiwalla, Dept. 374, right, proved an unbeatable combination in the Old Pal Golf Tournament, carding a best-hole score of 60 in a play-off among five other flight winners. Jim Herman, Old Pal Tourney coordinator, congratulates the victors, who were presented gold trays along with trophies.

WAIT TILL NEXT YEAR is a consoling thought to these members of GMI, but second place out of a field of 74 teams isn't bad. Standing, left to right, are: Jim Chestnut, Bill Fillmore, Fred McMillin, Larry Kuhns and Tom Bruner. Sitting are George Finn and Tim Keenan. Not present for the photo were: Nick Bozich, George Chambers, Gene Davidson, Al Johnson, Bob Johnson, Bob Langewisch, Dick Rantilla, Dennis Reichert, Curt Rodgers, Mike Romig and Dave Heilman.
